

# WINTER CHECKLIST: Tools and Machinery

- Bring all seasonal tools inside and spray them with a coating of lightweight oil to prevent rust.
- Sharpen ice chopper and inspect snow shovels to make sure they're ready for another season of work.
- Make sure you have an ample supply of ice melt or sand on hand for steps, walkways, and the driveway.
- Weatherize your lawn mower by cleaning off mud, leaves, grass, and debris.
- Move your snow blower and shovels to the front of the garage or shed for easy access.
- Prepare the snow blower for the first snowfall by changing the oil and replacing the spark plug.
